

PL19TFD002 Question and Answer

Completed Oct 25 2017 by Jordan Carter

Q: Who pays the helicopter invoices for the PL19TFD002 contract?

A: The contractor is responsible to pay all helicopter costs. The helicopter costs are to be included in the bid price per tree.

Q: Under what circumstances would the Contractor be paying for heli?

A: The contractor will be paying for all helicopter costs, which are to be included in the bid price per tree. The only exception to this is the \$3,000 'access allowance' which the contractor can make a case to use for any unforeseen access changes since viewing, which could potentially include use of a helicopter.
